SUMMARY

Software Engineering student at Cairo University with hands-on full-stack experience in **ASP.NET Core**, **Laravel** and **React**. Led a 14-member team building an internal ERP system during an internship at a Microsoft Solutions Partner, and independently designed and built **Teby**, a bilingual clinic-management SaaS. Comfortable across requirements analysis, database design, APIs and UI.

EXPERIENCE

ProArt — Microsoft Solutions Partner Aug 2026 – Sep 2026
Software Engineering Intern & Team Lead Cairo, Egypt

- Built features for the company's internal **ERP system** as part of a 14-member team, developing RESTful APIs with **ASP.NET Core**, **Entity Framework Core** and **SQL Server**, documented with **Swagger** and working with **Microsoft Azure**.
- Developed **React** front-end screens that consume the ERP APIs.
- Led the team: broke requirements down into tasks, assigned work and tracked progress on **Azure DevOps**, and coordinated the team's **Git** workflow.

PROJECTS

Teby — Clinic Management SaaS | *Laravel (PHP) · React · MySQL* Live Demo · GitHub

- Designed and built solo an end-to-end SaaS for doctors: patient profiles and medical history, visits, payments and installments, and online booking with automatic appointment-slot generation.
- Laravel REST API (PHP 8.3, Sanctum auth, MySQL) and React front end (Vite, TanStack Query, Tailwind) with a fully bilingual **Arabic / English** interface.
- Prescription printing (A5/A4) and per-visit **PDF / Word** export with Arabic support.
- Enforced quality with automated tests (Pest, Vitest), CI quality gates (80%+ backend coverage), a WCAG 2.1 AA accessibility audit, and a pull-request workflow with protected main branch (130+ commits).

Personal Portfolio Website | *React.js · Tailwind CSS* Live Demo

- Responsive portfolio with animated transitions, 3D-inspired visuals and project showcases, optimized for web deployment.

Movie Web Application | *React.js · TypeScript · JavaScript*

- Consumes a third-party movie API with real-time search and a favorites system to save and manage movies.

GPA Calculator | *JavaScript · HTML · CSS*

- Calculates GPA from marks or letter grades, including mark-to-grade conversion.

E-Commerce Shopping System & Music Track Manager | *C++ · OOP*

- Console applications covering product browsing, cart and order processing, and music-track storage, search and updates.

TECHNICAL SKILLS

Languages:	C#, C++, Java, JavaScript, TypeScript, PHP, Python, SQL, HTML, CSS
Back End:	ASP.NET Core Web API, Entity Framework Core, Laravel, REST APIs, Swagger
Front End:	React.js, Tailwind CSS
Databases:	SQL Server, MySQL, Database Design (ERD)
Tools & Cloud:	Git, GitHub, Azure DevOps, Microsoft Azure, Pest, Vitest
Engineering:	Requirements Analysis, UML Diagrams, OOP, Design Patterns

EDUCATION

Cairo University — Faculty of Computers and Artificial Intelligence Expected 2028
B.Sc. in Software Engineering

COURSES & CERTIFICATIONS

- **CS50: Introduction to Computer Science** — Harvard University
- **Algorithms & Problem-Solving (Levels 2–3)** — Programming Advices
- **Ultimate JavaScript (Fundamentals & Advanced) · Ultimate Java (Fundamentals & OOP, Part 2 in progress)**
- **Web Development Fundamentals** — Black Horse · **TIEC** — in collaboration with Creative Innovation Hub

LANGUAGES & SOFT SKILLS

Arabic — Native · **English** — Good | Team Leadership, Communication, Problem Solving, Time Management
